DETAILED ACTION

Allowable Subject Matter

1. Claim 24 is allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 24 is allowable because the prior art of record neither anticipated nor rendered obvious that a liquid crystal display panel comprises various related elements as claimed with specific features recited in claim 24 as follow:

a second metal thin film (upper electrode of a storage capacitor) over the adjacent one of the gate lines and overlapping the pixel electrode to define a storage capacitor, the second metal thin film extended into the pixel area with a width in the first direction (horizontal direction) less than a separation between the one of the data lines and the adjacent one of the data lines so that the second metal thin film is separated with respect to the first direction from the one of the data lines and the adjacent one of the data lines; and a second light shielding member extended from the black matrix into the pixel area to completely cover the second metal thin film (upper electrode of the storage capacitor), the second light shielding member having a width in the first direction (horizontal direction) greater than of the second metal thin film but less than a separation between the one of the data lines and the adjacent one of the data lines so that the second light shielding member is separated with respect to the first direction from the one of the data lines and the adjacent one of the data lines as shown in Fig.4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
